Project outcomes	
+ <input checked="" type="checkbox"/> PA01 Outcome 1	Increased competitiveness of Slovak enterprises within the focus areas: Green Industry Innovation and Welfare Technology and Ambient Assisted Living technologies
+ <input type="checkbox"/> PA03 Outcome 2	Education and Employment potential enhanced in Slovakia in Green Industry Innovation and Welfare and Ambient Assisted Living technologies

Summary

The main goal of the mFIRES project is to bring ICT solutions in the form of a system of assistance services for elderly, people after surgery, disabled or otherwise dependent seniors. Intellope together with the project partner Samaritans Association, which is a long-term operator of SOS line, identified new kind of services based on the needs and requirements of their clients. The services will be provided by creating three modules within the mFIRES IT system. By combining the modules, it will be possible to secure seniors with social, medical and technical support, assistance with daily living activities, maintain independence and social

interaction.
