Project content

Project outcomes	
+ <input checked="" type="checkbox"/> PA01 Outcome 1	Increased competitiveness of Slovak enterprises within the focus areas: Green Industry Innovation and Welfare Technology and Ambient Assisted Living technologies
+ <input type="checkbox"/> PA03 Outcome 2	Education and Employment potential enhanced in Slovakia in Green Industry Innovation and Welfare and Ambient Assisted Living technologies

Summary

Digital Energy Service Platform:

The aim of the project is to digitize processes through the creation of a Digital Energy Service Platform. This platform will ensure the transition from energy analogue heating solutions to energy efficient / energy saving solutions for heat and electricity generation (Cogeneration) with digital processing and transmission of consumption and production data. The owners of buildings - public administration, self-government, industry - will benefit from the project environment, economy - reducing greenhouse gas / CO2 emissions into the atmosphere transition to a carbon-free / emission-free heat and power supply / building segment reducing the energy intensity of buildings.

Sector code Energy	Sub sector code Energy Efficiency
------------------------------	---

Project target group			
End beneficiary	End beneficiary sub-group	Intermediary	Intermediary sub-group
General	Environment	-	-

Policy markers	
Gender equality	Non-applicable
Roma inclusion and empowerment	Non-applicable
Social inclusion of vulnerable groups other than Roma	Non-applicable
Anti-discrimination	Non-applicable
Transparency and anti-corruption	Relevant
