Project outcomes	
☑ PA01 Outcome 1	Increased competitiveness of Slovak enterprises within the focus areas: Green Industry Innovation and Welfare Technology and Ambient Assisted Living technologies
☐ PA03 Outcome 2	Education and Employment potential enhanced in Slovakia in Green Industry Innovation and Welfare and Ambient Assisted Living technologies

Summary

Summary

The project aims to develop 50 online applications focusing on diagnosis and therapy plan, corrections and training of various mental functions, such as memory, attention, thinking, speech, emotionality, will, motivations, etc. for people with disabilities and seniors, as well as children with disabilities and special needs. The applications will be pilot tested using 100 refurbished tablets in support of the green economy, which will be donated to social service hoThe development of applications also assumes the involvement of elements of gaming, artificial intelligence or virtual reality. The software will be able to record and evaluate the diagnostic processes as well as to set up, by algorithm, the therapeutic process performed by experts (psychologists, field social workers, carers, etc.), which are already using SOCIO. All these smaller apps of ELDIS-SOCIO will be created by the staff (PwD) of the WELLNEA - the multiplication of help by those who are disabled and helping by their work to the other disabled and elderly. Social impact - not only creation of 10 new job positions for PwD, but also to maintain them because of incorporation into stable personal structure of social business with state subsidiaries and successful business plan. Social inclusion of vulnerable groups other than Roma - elderly and persons with disabilities is in project fundamental and is fulfilled by all activities and its outpost of project, this is also the main mission of project. Anti-discrimination is fulfilled namely through communication strategy and associated in each project information and PR activites.

Sector code	Sub sector code
Social Infrastructure and Services	Social/welfare services
