+ <input type="checkbox"/> PA01 Outcome 1	Increased competitiveness of Slovak enterprises within the focus areas: Green Industry Innovation and Welfare Technology and Ambient Assisted Living technologies
+ <input checked="" type="checkbox"/> PA03 Outcome 2	Education and Employment potential enhanced in Slovakia in Green Industry Innovation and Welfare and Ambient Assisted Living technologies

Summary

The project builds on the ongoing process of digitalization of teaching. Every teacher in our school can ensure the teaching of their subject through some digital platform, but in case of vocational practical teaching there is room for improvement. The Project Promoter is constantly looking for new, clearer ways to bring students closer to practical skills, even when they cannot provide in-person education. The Project Promoter SSOŠ DSA in Trnava, welcomes the Norwegian partner Arctic Circle Upper Secondary School's offer to present their strategy and methods of practical teaching in vocational subjects using digital tools. The aim of the project is to transfer the strategy and methods of digital learning from the Norwegian partner and at the same time create a strong partnership for further cooperation. The project will involve 15 teachers and masters of practical training from SSOŠ DSA in Trnava. The result will be a system of digital tools and trained staff with new digital skills. A tutorial will also be created, making it easier to transfer the practice to other schools.

Sector code Education	Sub sector code Secondary education	Project type Institutional cooperation
---------------------------------	---	--

Project target group			
End beneficiary	End beneficiary sub-group	Intermediary	Intermediary sub-group
